

Pay it Forward Awareness Event

“Pay it forward means to respond to a person’s kindness to oneself by being kind to someone else”

International Pay It Forward Day is on April 28. The event can take place on a day but preferably, for a better effect, over a week. The intent is to enhance students’ understanding of giving by doing a good deed for someone and expecting nothing in return. The receiver is encouraged to “pay it forward.” Hopefully the students’ see the positive differences they can make and by seeing a ripple effect, it is motivating and visible that “everyone can make a difference!” Please review the attached link for details on how to organize it for your school!

To kick off the week, it would be a great idea to host the movie “Pay it Forward” on Monday night or afterschool in the theatre! ☺
