

# Communicating Student Learning

## Creating Effective Report Card Comments

*\*This document is meant to support teachers in writing effective report comments. It is not meant to be prescriptive.*

### Big Ideas

Teachers write comments that:

- ✓ **focus on what students have learned**
- ✓ **describe significant strengths**
- ✓ **identify next steps for improvement**
- ✓ **demonstrate knowledge of the child as an individual learner**

- ✓ *Descriptive feedback helps students learn by providing them with precise information about **what they are doing well, what needs improvement, and what specific steps** they can take to improve.*
- ✓ *Descriptive feedback **enables the learner to adjust** what he or she is doing to improve.*
- ✓ *Ongoing descriptive feedback linked specifically to the learning goals and success criteria is a powerful tool for **improving student learning** and is fundamental to **building a culture of learning** within the classroom.*
- ✓ *Communication provides **meaningful evidence** about the student's progress in relation to the learning standards.*
- ✓ *Learning standards include curricular competencies and content and describe what students are expected to **KNOW, DO and UNDERSTAND**.*

## Comments:

- describe in overall terms what students know, can do and understand
- avoid language that simply repeats the wordings of the curriculum expectations or the achievement chart
- use language that parents/guardians will understand
- provide parents/guardians with personalized, clear, precise, and meaningful feedback
- help parents/guardians understand how they can support their children at home

***Comments are created with strengths, specific examples, and next steps personalized to the student***

<b>Do...</b>	<b>Do Not...</b>
<ul style="list-style-type: none"><li><input type="checkbox"/> Maintain a focus on the child</li><li><input type="checkbox"/> Connect comments to learning standards</li><li><input type="checkbox"/> Focus on what was learned/achieved</li><li><input type="checkbox"/> Use “parent friendly” language and maintain a focus on that audience – remind yourself of what you would like to read about your own child.</li><li><input type="checkbox"/> Provide examples to help clarify the broad statements</li><li><input type="checkbox"/> Identify strengths, challenges</li><li><input type="checkbox"/> Connect next step(s) to the challenge(s) identified</li></ul>	<ul style="list-style-type: none"><li><input type="checkbox"/> List what was taught</li><li><input type="checkbox"/> Use teacher jargon</li><li><input type="checkbox"/> Over-emphasize the negative (challenges)</li><li><input type="checkbox"/> Mix speaking to parents and students interchangeably by inserting comments such as “Good Job, Jason!”, or “Bravo!” etc. (These comments should be reserved for the additional space at the end of the report card.)</li><li><input type="checkbox"/> State what will be the focus for the whole class instruction during the next term.</li></ul>

**Throughout the report card, for each comment that is written, maintain a student-centered focus.**

## Keep these questions in mind:

### *Will a parent reading these comments*

- understand clearly how his/her child is doing in your class/subject?
- understand that his/her child has areas of strength?
- know what is being done to address any areas of weakness? (This might also include ways the child can take some responsibility for his/her improvement and/or ways the family can support.)
- be aware of your interest in his/her child as an individual learner?

## FRAMEWORK

Structure of a Comment		Examples
*Opening / anchor sentence	* State the level of overall achievement related to the subject area.	<p><b>Math Foundations 10</b></p> <p>STUDENT achieved most of the expected learning standards in Data Management, and Numbers and Operations. For example, she can create various graphs following models but has some difficulty interpreting graphs. She struggles with the standards in Geometry, such as the relationship of surface area to volume. She is encouraged to refer to whole-class sample problems when working independently.</p> <p><b>Grade 7</b></p> <p>STUDENT had a very positive start to the school year. He participates enthusiastically in class discussions and demonstrates leadership in group activities, contributing his ideas and respectfully acknowledging the ideas of his peers. He generally uses class time effectively, focusing on the task at hand and asking questions when necessary. Taking the time to use the set criteria to review and improve assignments before submission should be a focus for STUDENT in the next term. In our Integrated Studies unit on the governments of ancient civilizations, his group of four chose to study the governmental structures of ancient Greece and ancient Rome. His work demonstrated exemplary use of research processes to gather and interpret information from a variety of sources. His contribution to the group's final project, a scripted panel discussion, was organized, accurate, and detailed. In Math, STUDENT has demonstrated a solid grasp of concepts covered and enjoys problem-solving challenges which require application of these concepts. <b>STUDENT</b> must be commended for his positive attitude and his willingness to take risks in his learning.</p>
State the strengths	What the evidence shows the student achieved/learned.	
Identify challenges	What the evidence shows the student has not yet achieved/learned.	
Next steps	Plans to address the student's challenges	

## Qualifiers for Learning Skills and Work Habits

Excellent	adaptable, astutely, autonomous, can model, caring, clearly, committed, completely, consistently, discerning, distinguished, divergent, easily, effectively, extensively, exemplary, flawless, flexible, giving, impressive, innovative, insightful, inspirational, kindly, masterfully, meticulously, positively, precisely, proficiently, reflective, reverent, secure, seeks challenges, self-assured, servant leadership, synthesizes, thoroughly, uniquely, virtuous
Good	accomplished, comfortably, competent, confidently, constructively, credible, developed, frequently, generally, influences, knowledgeable, manages, more, most, often, regularly, skilled, successfully, usually
Satisfactory	acceptable, adequate, approaching, at times, developing, fair, inconsistently, learning to, limited, occasionally, sometimes, passable, periodically, some, suitable
Needs Improvement	avoids, clarification needed, disengaged, few, hardly, indifferent, infrequently, illogical, literal, little, minimal, minor, naïve, numerous attempts, only, poor, rarely, reflection needed, reluctantly, review needed, seldom, simplistic, when required, with difficulty, unclear, unsure

## Qualifiers for Curricular Areas

High Degree	accurately, consistently, almost always, clearly, precisely, confidently, proficiently, very successfully, all or almost all concepts, complex, logical, sophisticated, thorough understanding, wide range of context, consistently accurate, with no minor errors or omissions, high level of proficiency, extends, expands, self corrects
Considerable	usually, often, routinely, regularly, frequently, most concepts, fair range of context, very good, good, firm understanding, strives, grasps, applies
Some	sometimes, adequately, some concepts, some specific purpose, simple purposes, some appropriate strategies, some understanding, appropriate but incomplete, attempts familiar, require review / practice, beginning to demonstrate, developing, several minor omissions / sometimes major errors
Limited	rarely, seldom, with monitoring, few purposes, few contexts, incomplete unclear, imprecise, basic, limited understanding, limited range, inconsistently, with difficulty, few conventions, major errors, simple ideas
