Langley School district is open for business. Join us for a dynamic Community Dialogue Event. Learn about our district's commitment to integrate entrepreneurship and innovation into our classrooms. Find out how you can get involved.

Mindset Matters is a 45-minute documentary film that captures the stories of four students as they participate in *PowerPlay Young Entrepreneurs*, a dynamic experiential learning program. Students Josh, Emma, Muhamet and Abel are all tasked with creating their own business ventures. They must take charge of their learning, make their own decisions and are free to make mistakes.

A recent study states that 85% of jobs that will exist by the year 2030 have not been invented yet. To flourish in tomorrow's economy, students need to learn entrepreneurial skills including problem-solving, creativity, critical thinking and social responsibility.
