

# Prepare for Take Off!

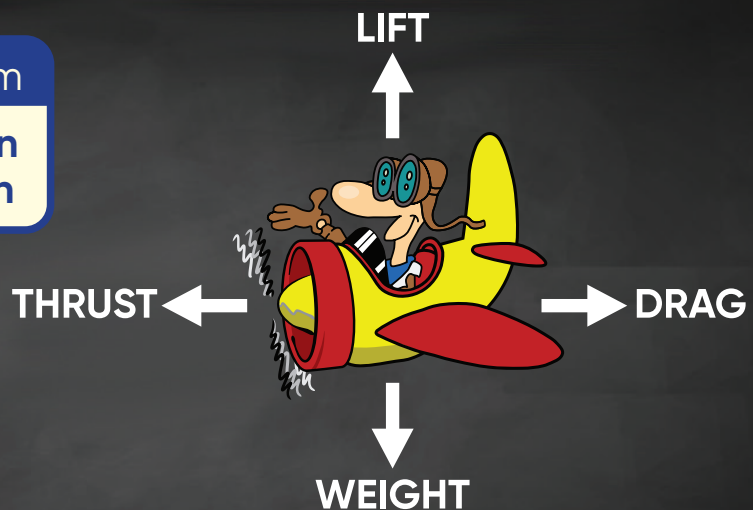

## Canadian Museum of Flight School Programs

*beginning January 22, 2020*

Grade 6 Science Program

Using Aviation to Explain  
Newton's Laws of Motion

### Course Description:

This dynamic new Grade 6 science program uses the science of aviation to explain Newton's Laws of Motion. Instruction from highly knowledgeable aviators, coupled with hands-on activities, simplifies this curriculum requirement and will result in an engaging and memorable learning experience. Plus, students receive a free WWII glider to take home.

To register, contact the Canadian Museum of Flight at 604.532.0035.
