

## Virtual Education Program

### OWL in the Classroom

OWL's Virtual Education Programs offer you and your students a chance to learn about the amazing species of raptors that call British Columbia home, the features and adaptations that make them unique, and about the dangers they face and how you can help. You also get the chance to meet some of OWL's Raptor Ambassadors up close on camera! All programs will also include the BC Curriculum Science Big Ideas and Content for each grade level and we can also tailor the program to fit specific topics, such as food chains, learning about pellets, or about a specific species like owls or hawks.

The program can be viewed on multiple devices from wherever you and your students may be. All that is required is an internet connection and a device, such as a phone or computer. We host on different conferencing software, such as Zoom or Microsoft Teams, so you are covered no matter what your school district has approved.

Listed below are the programs we currently offer. All applicable taxes have been included in the prices listed.

#### **40-minute owl pellet program** - \$120

- An introduction to OWL and what we do
- Learn about owl pellets and how they are formed
- Demonstration on how to dissect a pellet to get your class started
- Meet an Owl Ambassador
- Pellets will need to be purchased separately

#### **40-minute program** - \$120

- An introduction to OWL and what we do
- What makes raptors unique
- The dangers they face and how you can help
