Stick-lets- Flexible connectors to build anything you can imagine using sticks

Stick-lets are flexible silicone connectors intended for outdoor play and maker activities. Use them by lashing sticks together; these connectors work with sticks with a diameter of up to 2"

These connectors promote problem-solving skills, team building, dexterity, design discovery, and hands-on learning.

Visit www.stick-lets.com for more information on these resources. Kit # 222315

Makedo cardboard construction toolkit

Makedo is a simple to use, open-ended system of tools for creative cardboard construction. Build imaginative and useful creations from upcycled (repurposed) everyday cardboard. NOTE: Teachers you must provide your own cardboard to use with this kit. Check out this website for examples of design challenges with Makedo! This kit also comes with the picture book, *Boxitects* by Kim Smith

Kit # 022298
