

DLC INSIDER VOL.10

All about elementary MATH resources

Resources are dropped off via district mail

Using Literature to teach Mathematics Kit

This kit contains various titles that promote numeracy. They can be used in classrooms to integrate numeracy and literacy. Many of the titles can be used to introduce and support various topics in math. Kit # 022132

Hexagons : Nature's perfect packers

Hexagons naturally fit together without wasting any space. This can be seen in beehives and turtle shells. Using wooden manipulative shapes, including hexagons, triangles and parallelograms, students learn about shapes and how they fit together. This kit contains 15 sets of wood blocks. Kit #020492
