

Wildlife IN YOUR Classroom

Wildlife in Your Classroom is designed for students in Kindergarten through Grade 4. Interactive presentations include activities, demonstrations, taxidermy, multimedia visuals and a Q & A session with the naturalist, if time permits.

"Why Do Animals Live in My Neighbourhood?"

Learn about the basic needs that all animals have, their adaptations to survive, why they live in our neighbourhoods and how we can co-exist with them. Recommended for Grades 1-4.

"Now We See Them, Now We Don't"

Explore the idea of seasonality on the West Coast with snow geese, coyotes and humans as case studies and then determine what adaptations they have at different times of the year. Recommended for Grades K-4.

Educators have a choice of three different Wildlife in Your Classroom programs. Choose one, two or all three.

1. Why Do Animals Live in My Neighbourhood? - Skunks and Coyotes
2. Why Do Animals Live in My Neighbourhood? - Raccoons and Snow Geese
3. Now We See Them, Now We Don't
